APEX Well Servicing

APEX WELL SERVICING

AWS was established in June 2008. Their goal is to run their operation with not only the best equipment, but also the best people. They are dedicated to providing good quality service safely. AWS is a proud member of CAODC and is listed on Complyworks and ISNetworld. They hold an Alberta Safety Council Certificate of Recognition.

AWS has numerous years of experience and qualified personnel whose expertise is in the well servicing & completions sector of the Canadian Oil & Gas industry. Clients look to Apex Well Servicing as a first-class well servicing company.

APEX Well Servicing

Differentiators

Clients look to Apex Well Servicing as a first class well servicing organization. AWS has numerous years of experience and qualified personnel whose expertise is in the well servicing & completions sector of the Canadian Oil & Gas industry.

- Cost Savings initiatives throughout many channels
- Experienced rig crews with experience in thermal operations
- Custom Continuous rod strings built in-house at AWS Pin-to-Pin Plants
- Have multiple divisions that can work simultaneously on the same well

Indigenous Engagement Policy

Apex Well Servicing recognizes and appreciates the unique qualities, abilities and diversities of Indigenous People and their relationship with their lands and environment. Through open communication, we develop positive relationships with Indigenous People that are based on trust, honesty and integrity.

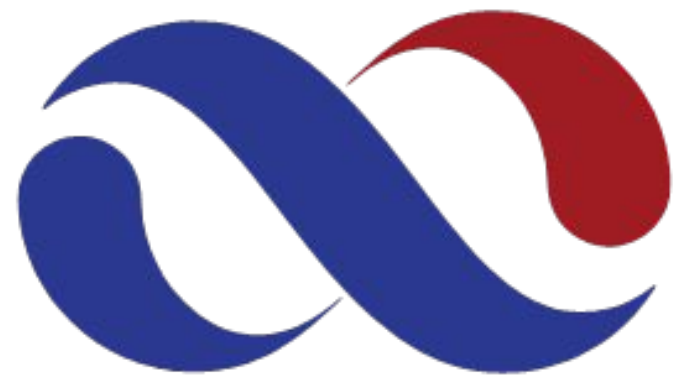

Apex commits to creating relationships with Indigenous and First Nation's Peoples in areas where traditional lands and or communities are close to, or are affected by projects and or operations.
